## Emotion Coaching

Emotion Coaching is an approach that parents/carers can use with children and young people to support their emotional development.

Research suggests that Emotion Coached children and young people:

- Are more emotionally stable
- Are more resilient
- Achieve more academically in school
- Have fewer behavioural problems

This session will introduce the steps of Emotion Coaching and its scientific basis and will involve practical activities and resource sharing so that parents can begin to use this increasingly popular approach straight after the session.

10 of our pupils are being trained as Junior PCSO's. Next week's training is:

Recap signs and road markings – what signs and road markings did the pupils see? Why were they there? Who were they for?

Seatbelts and car seats – regulations. Who, when, etc? Why do we wear seatbelts?

Measure the pupils – who needs a car seat? What sort of car seat?

Fire Service input on car safety (where available).

Following this training, the children will be on patrol at Templars and you can expect to be challenged!

*Your support for your child's education is crucial to their progress. Please tell us if there are any adjustments we need to make to help you support your child, for example: letters in large font; letters in different languages; wheelchair access; explaining things over the phone; a discussion with a school colleague of the same gender.*
