Measuring in centimetres

Measure from zero

This ruler measures in centimetres (cm).
The crayon is 7cm long.

Measuring in metres

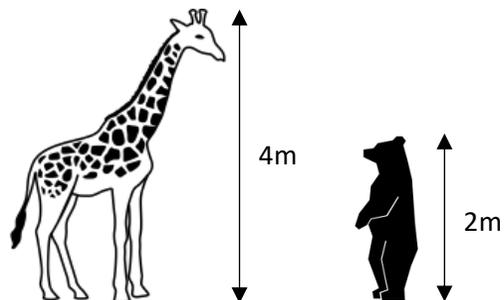

We can measure the length or height of larger objects in metres (m).
The girl is 1m and 40cm tall.

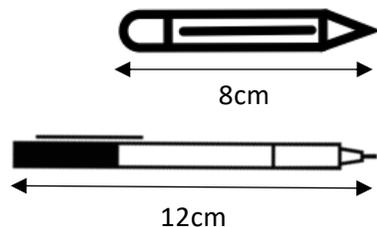

1 metre = 100 centimetres
1m = 100 cm
There are 100 cm in 1m

We can use metre sticks, trundle wheels or tape measures to measure large objects.

Comparing height and length

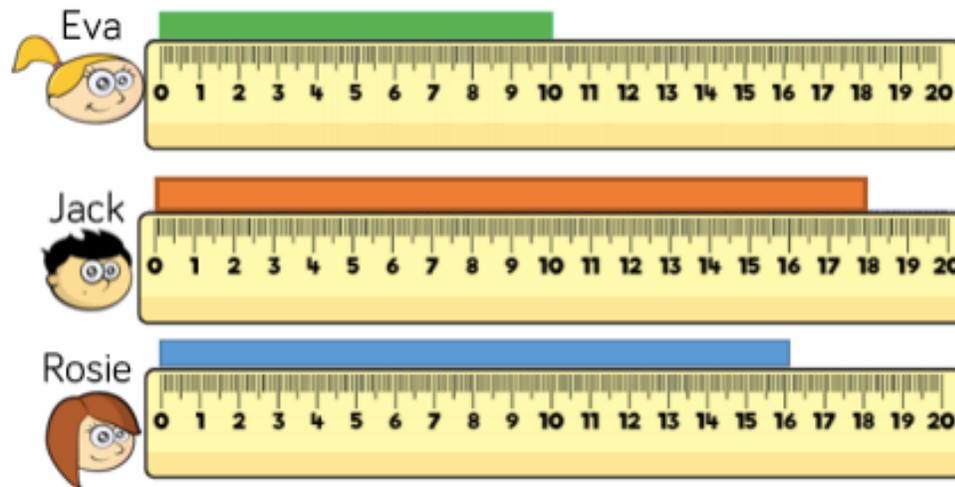

The giraffe is **taller than** the bear.
The bear is **shorter than** the giraffe
 $4m > 2m$

The pen is **longer than** the pencil.
The pencil is **shorter than** the pen
 $8cm < 12cm$

Four operations with lengths

Eva, Jack and Rosie each have a piece of ribbon.

How much longer is Jack's ribbon than Eva's?

Jack's ribbon = 18cm Eva's ribbon = 10cm $18 - 10 = 8cm$

Jack's ribbon is 8cm longer than Eva's.

Jack and Rosie put their ribbons together. How long are they altogether?

Jack's ribbon = 18cm Rosie's ribbon = 16cm $18 + 16 = 34cm$

Eva cuts three more ribbons the same length as hers. What is the total length of all four ribbons?

Eva's ribbon = 10cm $10cm \times 4 = 40cm$

Eva cuts her ribbon in half. What is the length of each piece?

Eva's ribbon = 10cm Half of 10cm = 5cm

Order lengths

The straws are in order from
longest to shortest.

A is the **longest**.
D is the **shortest**.
B is **longer than** C.
C is **shorter than** A.
